Brought Home.
Aunt Arvilla Bryant, an old resident
here, was brought from Portland, last
week, for burial. This had always been
her home until about three years ago
when she moved to Portland. She was
93 years of age and one of the smart old
ladies. She was sick about a week be-
fore her death.

The funeral was at the Methodist
church, Rev. Mr. Nelson officiating.
The flowers were many and beautiful.

Mrs. Geo. Stevens has been visiting
her sister in New Gloucester.

Union school yard for the accommodation
of the scholars.

line, one at Frank Whitman's and one at
Fred Merrill's.

A party from Paris Hill went on a
fishing trip through the east part of the
town Tuesday, with an automobile, and
met with quite an accident. They
punctured one tire and one of the cylin-
ders gave out. The last seen of it, it
was headed toward Paris Hill, going
very slowly with a horse on a lead.

There was a Davis picnic, Tuesday, at
the maple grove on the place known as
the old town farm, now owned by J. H.
Davis, which was very much enjoyed.

was 80 years of age and had been in

In earlier years he took a course in
navigation and served as master of merchant
vessels to foreign countries. Afterward
he studied and practiced medicine some
10 years and when the Civil War broke
out he served as acting master of naval
vessels, a part of the time on the "Olin."
About 1880 he moved into Sumner
and purchased a large farm which he
carried on till health began to fail, when
he purchased a residence at West Sum-
ner village and occupied the same until
his death. He had served the town as
one of its principal officers and was
honest and faithful to every trust con-
fided to his care.

He leaves a widow, a daughter, Mrs.
Helen Robertson, a son, Byron M. Small,
clerk of courts and attorney at law in

Small who is a successful farmer in West

to Mechanic Falls in 1837. He was a
shoemaker by trade and went to work in
a little shop that stood near where the
Grand Trunk depot now stands, and for
30 years worked at his trade or kept a
shoe store. He was a charter member
of the Congregational church in Mechan-
ic Falls and was a deacon in the church
for 30 years.

He went to Illinois in 1870 and for
some years worked on a farm but latter-
ly has only had the care of a garden and
other light work.

He leaves a wife, Sophia Valentine

marriage), one son, Prof. Frank H. Hall,
and one daughter, Mrs. Lottie Arm-
strong, natives of Mechanic Falls, four
grandchildren and three great-grand-
children.

He gave a sketch, "A Trip across the Atlantic," bringing in many characters seen on ship board, which was finely given. Another and perhaps most striking impersonation was David Harum, he reading in full two chapters from that very human book, presenting the classic "hoss trade" and the "Widow Cullum's mortgage" in a very appreciative manner.

PARIS HILL.

Burglars Buried Bumpingly.
Thursday morning of last week some one tried to force an entrance into the Paris Public Library building, Hamlin Memorial hall. In former times attempts were made to force exits from this same building, some of which were successful.

The attempt on Thursday was made by closing the seams around the door with soap, filling the lock with nitroglycerine, which was exploded with the only effect of spoiling the lock and staving a strip from the door.

The door is of boiler plate heavily riveted and very solid, a relic of the days when this building was the county jail, and which with the bars over the windows was retained when the change of use was made. Of course the object of the attempt was to secure the townships placed here by Dr. Hamlin, Mr. Merrill and the Carter heirs.

This stone for many of the specimens are imperfect as gems though fine for the cabinet, while the perfect stones are traceable among experts as diamonds.

Miss Mills of Newark, N. J., is a guest at Old Brick.

Major G. A. Hastings Dead.
Major Hastings died Thursday, Aug. 31, at 2 p. m., at the home of his son Herbert A., in Winchester, Oregon. About four weeks before, accompanied by his son F. E. Hastings and wife, he went West and reports received up to the time of his death were that they were well and having an enjoyable trip.

Major Gideon A. Hastings was a native of Bethel and born Feb. 18, 1831, was one of the first graduates of Gould's academy. He then engaged in blacksmithing with his father and later with Woods & Homer, constructors of the Grand Trunk road. He became interested in timberland and with his brother, the late Maj. D. R. Hastings of Bethel and later his son D. R. Hastings of Auburn, engaged in lumbering, of late years very successfully.

He enlisted, Nov. 15, 1861, as a private in the 12th Maine Infantry, being subsequently promoted to captain of Co. A. In June, 1863, he was commissioned Major in the same regiment. He was at the capture of New Orleans, in the campaign in the Shenandoah Valley and after the capture of Savannah, Ga., was appointed provost marshal of West Georgia. He was agent of the Freedmen's bureau in Georgia. After muster out, Apr. 26, 1868, he bought a plantation in the state but was soon obliged to give it up on account of ill health.

He served as town clerk in 1850, was the representative to the legislature in 1852, served as selectman in 1870, '71 and '72, and again in 1883. He was county commissioner a term, superintendent of the Maine Water Company for years and president of the trustees of Gould Academy.

He leaves five sons, David R., of Auburn, William A., and Thomas F., of Bethel, Moses A., of Lancaster, N. H., and Herbert A., of Winchester, Oregon. The funeral of the late Major G. A. Hastings will be held Sunday, Sept. 10, at 1 p. m. Members of the 12th Maine are requested to be present.

Burned In His Mill.
Sad news of the burning of Francis T. Faulkner's mill in Turner, on Sunday, and the loss of Mr. Faulkner's life in the building. It seems very sad as his only daughter, Mrs. A. M. Chase, we know so well, the ruins the watch belonging to Mr. Faulkner and a section of the back bone of Mr. Faulkner's body were discovered by the searchers, in a corner beneath the card room right by the entrance to the boiler room on the first floor, where Mr. Faulkner was apparently on his way toward the iron doors between the card room and the picker room, where he was overcome.

These doors are closed every night to prevent the spread of flames in case of a fire. Mr. Faulkner was probably going down to close these doors.

Large Party of Hebron People Royally Entertained at Lake Grove, Auburn.

On Wednesday, Aug. 29, about 35 Hebron people had a day's outing at Lake Grove, Auburn. Driving to North Auburn, they were met at the head of the lake by Hartley Cushman of Auburn, with his sons, the launch motor and daughter, accompanied by another launch and these two boats took the party to the grove, except A. M. Richardson and family and Fred Cushman and family who drove around the lake.

They were met at the grove by Warren Tibbetts and a party of people who escorted them to "Idyl-wilde," which they had engaged for the occasion. A picnic dinner was served in the spacious dining hall, the Auburn hosts furnishing corn, coffee, etc., for the entire party.

"Idyl-wilde," with its fireplace and many conveniences, is an ideal place for a day's outing. After dinner a pleasant time was enjoyed by all, boating, etc. in the lake, and a walk to the nearby cliffs.

Mrs. Abbie Marshall took a picture of the party assembled in front of the cottage, after which most of the party attended the theatre.

NEWRY.

The Cunnings Ways of Baby.

I have been reading recently of preoccupied babies, and it seems to me that the little baby daughter of Walter A. Foster and wife deserves a corner in your paper. Little Mildred Dorothea Foster is now eight months old, and is adding daily to her numerous baby accomplishments.

She sits alone, and has ever since she was four months old, and she is now beginning to climb up from the floor to a chair, and will politely make a bow when said "how do you do?" to; when said "by-bye" to she will wave her hand.

She has always been a perfectly healthy baby, therefore has been very little care to the family. She will sit in her crib with her little toy piano fastened in one end of it, and fit her little fingers across the keys and make a humming or buzzing noise as if she were playing the piano and singing. There are various other little pranks and capers that could be truly said of this little mite but I some doubt whether the public would readily believe it or not.

Mrs. Eunice Farrington, who suffered a stroke of paralysis shortly after her daughter's death on July 14, is slightly improving. Charles Berry and wife have moved from Norway to care for her.

All praise for the article from Bridgton on automobiles. A big touring car was seen going over the old road to Lovell, the only safe road around Waterford for a quiet drive, and the occupants would not have felt flattered to hear the well merited remarks upon them.

The ladies' circle met Tuesday afternoon and evening at the home of Rev. G. P. Fuller. After a bountiful supper the evening passed pleasantly with social conversation, and listening to songs by the young ladies. Unless further notice should be given there will be another circle at the vestry on Tuesday, Sept. 12.

NORWAY AND VICINITY.

Holden Reunion.

The fifth annual reunion of the Holden family was held at the old home place on Crooked river, Aug. 30.

Owing to the unfavorable condition of the weather only 50 were present. The day was spent by reviewing old times of younger days, renewing acquaintances, exchanging happy greetings, etc.

After a picnic dinner a business meeting was held and the following officers were elected for the ensuing year:

Pres.—H. O. Holden.
V. Pres.—Jesse Holden.
Sec.—Della Giles.
Treas.—Mrs. Ruth Horne.
Com. on Entertainment—Levi E. Holden, Ose Hill, Jennie Horne.

Remarks were made by L. E. Holden, Mrs. D. F. Hill and others.

Jennie Mann visited Susie King in Bethel, last week.

Harry Greenleaf spent a few days with friends in Auburn the past week.

Mrs. Elsie Titcomb of Rumford Falls is visiting friends here for a month.

Mrs. D. F. Bradburn and Marguerite Finney visited in Bethel several days last week.

Mr. and Mrs. Charles G. Blake of Philadelphia are spending their vacation with their Norway relatives and friends.

Mr. and Mrs. Z. McAllister of Lowell were in Norway last week on their way to attend the State Biological meeting at Gardiner.

One of our Summer residents called at the Advertiser office this week, just before his return to his home and said, "That iron watering-trough at the head of Main street is a disgrace to Norway. It is filthy, and there are angleworms and other things there that should not be there in it. No self-respecting horse should drink the water. Will you tell the people, so that the one whose business it is to see that it is cleaned out and the water fresh and clean for horses, may attend to their duty?"

Ralph S. Osgood, who has been spending his vacation with his uncle, F. W. Sanborn, has returned to his home in Lowell, Mass.

Jurons were drawn Saturday for the October term of court. Frank T. Pike was drawn on the Grand Jury. Orlin Brown and William W. Whitmarsh on the traverse jury.

A couple out driving, saw a lady picking up apples under a tree, and very politely asked, "Please, Madam, can we have some of the apples?" "Gracious," was the reply, "I'm stealing them."

F. E. Tower and family have moved from the cottage at Lake Pennessawasee, where they have been living this summer, and have gone to housekeeping in the Welch house on lower Main street.

Stella Pike would like to have the town attend more faithfully to the care of Mrs. Hawkins' lot on Pike's hill for which \$500 was left by will. It has never been properly finished, and other people have paid for removing the grass every year with one exception. It is close to Miss Pike's lot, whose ancestors were the first settlers and gave the hill its name, and she hopes some time to place a monument there in honor of Dudley and Celia Pike, who moved on the hill in 1787.

Ellie Swan of Everett, Mass., is spending her vacation with her mother, Mrs. Rowena Swan.

Frank P. Hoyt has arrived from Haverhill, Mass., and is to work for Walter S. Buck, North Norway.

Chas. Dearborn attended campmeeting Sunday last, accompanied by Lewis Lovejoy and C. W. Frost.

Josie Holden has a tent at the corn shop and dispenses Nevers' soda and eatables to the thirsty and hungry.

Joke on Hotel Men.

A barber in Erie, Pa., has been teaching two hotel-men how to paint.

Mr. Orlin Whitmarsh, the barber, Three years ago he painted his house and shop Devoe.

A year afterward, the hotels across the street—they are all on corners—were painted, not Devoe.

The story don't tell the first half of the facts; how much the three points cost per square foot. It tells how they looked last year.

The laugh was not on the barber. His house and shop looked new; the hotels had begun to look old; they'll paint Devoe next time; and next time will come pretty soon.

W. S. JACKSON, West Paris.

Farmum Family Reunion.

A reunion of the Farmum family was held at the home of David Farmum in East Milton on Aug. 22.

Dinner was served in the lovely grove near the house. It was a happy family of eighty in number that gathered around a table laden with such delicacies as only our aunts and grandmothers know how to prepare.

The grandchildren about thirty in number entertained their elders for two hours with songs and recitations all very well rendered, after which was a social hour and a game of base ball on the lawn. Before we realized it was time to refresh the inner man again. Supper was announced and the merry party gathered once more around the big table in the grove.

They went across the street to E. A. Farmum's vacant store, where the evening was spent in dancing. Music was furnished by Mr. McKay, violin, and Vern Jackson, organ accompanist. All present from the oldest to the youngest hopped the light fantastic till the wee sma' hours.

An invitation was extended to the family by Charles Farmum to hold their reunion at his home next fall.

The Pleasant Summer Home.

Waterford, Sept. 4, 1905.

"No more shall war's dread thunder read the skies, But beautiful as songs of the immortals, Shall the grand chorus of sweet peace arise."

The Professor was wont to use the stair banisters as he came down to the chapel for morning prayers.

On a certain occasion some unfeigned soul had copiously moistened them with treacle, dire consequences ensuing. After the services the Professor asked if any one present could name the transgressor. Silence for a moment, then a timid voice replied, "It is not certainly known, sir, but it is thought you had the greatest hand in it."

So when the glad tidings of Peace were flashed throughout the entire world one mighty pean arose and was echoed from far distant and closer hills. Our Grand President, our own Roosevelt, of a surety, had the greatest hand in it.

It has been rather a quiet week, that of the past, as if the angel of Peace had descended upon us.

True we have had two or three notable incidents, otherwise driving, rowing, canoeing and rambling have divided the pleasant hours of the guests.

Especially noteworthy was the progressive whist party under the direction of Dr. and Mrs. Gordon, Mrs. Brewer and Mrs. Harnden. Assisted by Mrs. Bailey, Mr. Ryder and daughter and Frank Harnden, the Lake House music hall was transformed into a bower of beauty and a cornucopia of loveliness.

The decorations consisting of stalks of corn, golden rods and flowering plants were arranged in most artistic designs, delighting the eye and diffusing fragrant odors. The bonbons and prizes were followed, and the latter were won as follows—1st lady's prize, Lillian Gordon; 2d, Estelle Egan; 1st gentleman's, Dr. Hillyer; 2d, Guy Dudley.

A return game of base ball was played on Brown's field, Saturday last, between the Bolster's Mills nine and the Waterford boys. It was rather a one sided affair, the home team virtually winning the game in the first two innings, the grand result being 11 to 4 in favor of Waterford. The score:

Waterford.
Mullen, c, 2b.
Hastings, 1b.
Manning, cf.
Knight, 2b.
Nelson, if.
Worrell, p.
York, rf.
Rounds, lb.
Haynes, 3b.
Chesler, C. O. G.

A fine catch of a fly ball was made by Nelson in left field, also of a foul ball by Haynes in left. Willie Munroe's pitching was excellent as usual, and Charlie Wilson did some fine springing.

This is the fifth consecutive game won by the home team and their smile is a broad one.

Since our last the arrivals at the Lake House have been Dr. Hitchcock, wife, son and maid, Mr. Bicknell, wife and daughter, and Mrs. Pierce, all of Malden, Mass.; Dr. W. E. Hamblen and wife of Chelsea, Mass.; Henry Warren and wife of Newton Center, Mass.; Mrs. C. J. Harlow of Brockton, Mass.; Mr. and Mrs. Rufus Lamson, Florence Lamson, Edith Perry, Mr. Brewster and Mrs. Bots of Portland; and Louis B. Wilson of Boston.

It is not to be expected that at this late season Dr. Hitchcock and Mr. Bicknell will repeat the splendid catches of bass made with the fly in the spring, but they are already doing pretty well with alewives and "lobster Newburg."

With Charles Morse is William C. Scheide of Brooklyn, who joined his family on Saturday last.

At Mrs. Doten's, since our last, are Arthur Brigham and family of Jersey City, N. J.

Mrs. Elphale Porter is occupying a pleasant cottage at South Waterford and entertaining her sister, Emma L. Wyman, also Mrs. Hunting Porter, both of Woburn, Mass.

George Wheeler had a narrow escape from a serious accident, falling some ten feet by the breaking of a staging on which he was at work. Fortunately an injured heel was the only casualty.

Annie Wilson has returned from Boston, where she has been visiting.

The great question before the guests of the Lake House is "Who shot the meadow hen?" Your correspondent knows but he won't (Es-telle) anyhow.

At 200 feet it was a good shot. Fred Johnson's bird was shot. Fred Johnson's bird was shot.

They frightened a horse which ran away, smashing a wagon and causing great excitement in the village. No serious damage done however. Fred didn't have time even to get a snap shot at them. His wife with the camera, took development of pictures of the exceedingly satisfactory to his numerous patrons.

"Silverlands," the cozy and artistically furnished boat house on Keoka, owned by Rex Rounds, has been the scene of many pleasant gatherings of the Brown family and their guests during the summer.

The friends of Mr. and Mrs. Daniel Brown, and they are many, will be glad to know that they are enjoying fairly good health for their advanced years.

Mrs. Wolfe of Arlington, Mass., has hired the House Cottage for the year. Good thing. The church bells did not ring its call to service last Sunday. Reason why, a much needed and dreadfully rainy day, bringing joy to the farmer, causing brooks to murmur with delight.

Conundrum, to close:—If the Mayor of Atlanta, Ga., who gets drunk when he goes a visiting, should ride home on a donkey, what fruit would they represent? Ans.—A pear. See it?

Only a Silken Curl.

"Eber, Eber, Eber!" sobbed, a sweet voice in agonizing tones.

It is dark and cold in the low, dismal attic, where in her roomer near the front window sits Diana Hudson. Her soft, gray hair falls over a tearful face and her thin, white hands clasp a silken curl.

Her whole frame shakes as the keen wind finds its way through the crevices around the stone chimney.

It is a cry never to be forgotten, those half-sobbed, half-measured words, "Eber, Eber, Eber!" Six months before, Diana had found shelter in this lonely attic and to-night, Christmas eve, while looking over some treasures of the past, she has come across a silken curl, which brings back days that had seemed so far away.

"The gates of memory swing open wide" and a beautiful picture passes before her. She is standing in the peaked summits glowing in the sunlight like a chain of gems. Hills and the picturesque valley between, where stands the little red farmhouse, her early home.

An orchard of apple trees, their branches heavily laden with fruit, is bobbing the house and still farther on fields of golden corn.

Scenes in her happy girlhood pass before her and one beautiful night, oh, how well she remembers it, the full moon sailing on magically and brightly stars shining like diamonds in the deep blue sky.

Across the way from out the shade and mystery of the wood a whippoorwill calls plaintively.

She is standing in the old porch in the moonlight, her young lover by her side. Her hand nestles in his strong palm, and looking into his dear eyes so fond and true, she listens to the old, old story of love and promise.

A delicious thrill of joy runs through her and for a moment the shadows steal away from her heart and into them creeps a tender light, over them a mist falls which is almost a tear.

Four brief years of married life, a home which is a haven of love and peace, and the picture changes.

Death enters her paradise, leaving her alone in the world with only her pretty baby boy Eber.

Away in the old "Pine Tree" State she sees a little church and not far from it the old country graveyard. There, where the grasses sway and bend in the summer winds, a plain marble slab marks the narrow grave where her youthful husband sleeps.

Better had he lived with him then, in the warmth of the sunshine with the gold on her hair, than live to be old and gray and comfortless, uncheered and unloved by the love and care of her idolized son, for whose sake she struggled with poverty and for whom she toiled day and night.

Christmas morning dawned clear, and bright.

"Eber, Eber, Eber!" None heard that cry of agony in the stillness of the night. She is alone in the room, and she is still sitting in her rocker by the window with the tears frozen upon her cheeks, the silken curl clasped in her hands and a beautiful light shining over her soft, gray hair like a halo of glory. PAINFUL PERIODS

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that menstruation is the balance wheel of a woman's life, and while no woman is entirely free from periodical suffering, it is not the plan of nature that women should suffer so severely.

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most medical science. It cures the condition which causes so much discomfort and robs menstruation of its terrors.

Miss Irene Crosby, of 313 Charlton Street East Savannah, Ga., writes:

"Lydia E. Pinkham's Vegetable Compound is a true friend to woman. It has been of great benefit to me, curing me of irregular and painful menstruation when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing.

The Mystery of the Room.

Once upon a time there was a hotel and it had one haunted room in it. People thought it was the ghost of a person who had lived there and was found dead one morning, and this was the room that the person had slept in. One night the hotel burnt down and the people tried to find out who did it, but they couldn't. After a while another hotel was built like the first one and in the same place, and the same room was haunted as in the other, till one night a man said he would stay and watch. About midnight he was frightened out of the room, and before they stopped twenty like him there and was found dead at last they gave it up.

One day a detective came to stay and solve the mystery of the room. When night came he took his pistols and went up in the haunted room, and about midnight he heard a noise as if someone was trying to get in. Pretty soon he saw a man come in through the open window; he knocked him down and buried him out of sight, and in came another and he knocked him down, and there were six in all. They were bound to be a gang of robbers who planned their mischief in this room. They were arrested and sent to prison.

What a Fair Should Be.

The premium list of a western agricultural fair contains the following:

"A fair is a business proposition. 'A fair is an educational institution. 'It is a builder of wealth in its community."

"It is designed to show productions of all kinds. 'It demonstrates what is done. 'It inspires visitors to strive to equal and then excel."

"It causes investigation as to how things are produced. 'It tends to promote ambition to produce better things. 'It shows that the best may just as well be produced. 'It demonstrates that the best brings the most money. 'It shows better results can be secured by less work. 'It proves that premiums are not earned simply by long hours of toil. 'It shows that well-directed energy wins. 'It makes one love his home and country more. 'It teaches the utility of complaint and the utility of sunshine. 'It is an annual robbing of old friends. 'It is incidentally a place of amusement. 'It is the best object lesson for the children occurring. 'It is promoted for all, to benefit all, to entertain all, and to educate all. There are none too big or too little to remain outside the gates. 'Its cost is one wise expenditure once each year."

No need to fear sudden attacks of cholera in autumn, dysentery, diarrhoea, summer complaint of any sort if you have Dr. Powers' extract of Wild Strawberry in the medicine chest.

Sudden Attack of Dysentery Cured.

A prominent lady of Brooklyn, N. Y.,

writes to enquire where she can obtain

Chamberlain's Colic, Cholera and Di-

Cheering Up.

Blessed be all, of whatever age or con-
dition, who carry the oil of good cheer,
who are in the "cheering up" business.
If we only knew how many sore hearts
there are around us, we should be more
kind and more patient, and more tender
in our speech. For instance, this which
was told by an observer; people were
cross and not at all kind that day; women
were ill-tempered and snapped at the
conductor of the trolley car; it so easy
to snap when it is muddy and dizziling,
and you don't feel just right. A big
red-faced man came pouting and puffing
up on the car steps, and soundly berated
the conductor and the whole railway
company because his peremptory signal-
ing had not been as promptly as he
thought it should have been.

A little maid sat opposite in a blue
Tom-shanter, and took it all in with
her grave, round eyes. She had a bunch
of nodding pinks in her hand, and she
made you think of a flower somehow.
Children are such initiative things! It
was not at all surprising that she had
caught the spirit of the others; her little
brows drew together, and her dainty
feet spurred at a big brown bundle that
happened to touch the tips of her little
shoes. "How dreadfully crowded this
car is!" she said, in a disgusted tone.
She gave a good scowl to somebody
hanging by a car strap whose loose
sleeve happened to touch the tassel of
her cap, and so brushed it a trifle for-
ward. Her mother, being in the same
state of mind, did not notice her little
air of vexation.

By and by the conductor hit the large
dolly she carried. "There," she cried
angrily, for all the world like the older
people around her, "there, now see
what you've done; knocked my dolly's
slipper off."

The conductor stooped instantly to
pick up the tiny thing, and for an in-
stant his eyes were on a level. In
instant she seemed to see something
that melted her; quick as a flash her
mood changed; "I'm sorry I spoke
cross," she said in her shrill, childlike
voice.

And then the passengers who were
near enough to see something. On the
man's face a quiver of grief, and then a
swift settling into rigid lines that even
children know means tears. He did not
speak, but the child held up the pinks to
him, saying, "Take some; my papa gave
me them; has you got a little girl?"
The man mechanically took two; his
voice was low and husky, and not many
heard his reply. "I'll put them in her
hand," he said; "my little girl died yester-
day."

Agricultural Education.

The settlers of New England early
recognized the need of education. In
every state academies and colleges were
chartered and established early as soon
as the common schools. The educational
advantages enjoyed by our people have
given us prestige throughout the
nation. Our young men have gone out
in large numbers to other states and
countries to acquire the share of the
responsibility and work and building up
molding the character and destiny of
the newer commonwealths. New Eng-
land thrift, New England push and
brains have lived many a community
in the west to higher ideal of life, hap-
piness and business success.

Yet our system of education has been
and is largely a technical one. The
common school curriculum and teacher
fit the pupil for the high school or acad-
emy; the high school or academy for the
college. The college aims to turn out as
many lawyers, doctors, ministers and
teachers as possible. Late years differ-
ent engineering departments have been
added and recognized as essentials.

The business man saw the needs of
special education along his line and busi-
ness colleges were established. The agri-
culturists were left to their own de-
vices. The dull boy of the family
stayed on the farm while his brother
went to college. Thus for a hundred
years the farms of New England have
turned off their annual crop of men.

The time has now come, when the
farms want back that which they have
so generously given the country, namely
brains—brains that have been educated
in scientific agriculture, brains that have
and can direct the hands to the best
methods of manual labor, brains that
can grasp business principles incident to
life and work on a farm. In a nutshell,
I believe that to-day the chief needs of
New England agriculture are more men
and women on the farms technically edu-
cated in the science of agriculture and
domestic economy, who will put as the
leaven for the improvement and advance-
ment of agricultural interests in the
community in which they live.

To improve our educational system
would begin with our common schools
and teach the primary principles of
plant growth and nature studies. Rank-
ing with the high schools and academies
I would like to see schools where the
boys and girls are required to do a cer-
tain amount of manual labor on the
farm, in the workshop, in the kitchen and
household; thus helping to pay their
tuition expenses as well as learning to
do work well and in a scientific and sys-
tematic manner.

After this, for those who wish for a
higher education, the colleges with the
manual feature in its regular course, and
a course that will keep the mind on the
technical needs of the farm and prob-
lems to be solved in agriculture.

The farmer's wife needs just as thor-
ough training in the principles of do-
mestic economy as her husband in his
department. The lack of knowledge of
how to make the most of what she has
to do with in the household management
has turned promising success into ling-
ering failure on many a farm.

Methodist Campmeeting.

The Methodist Campmeeting at Em-
pire began on Thursday, Aug. 24. The
only religious meeting of the day was a
social service in the evening led by
Rev. C. E. Parsons.

The Friday meetings were opened at
9 a. m. by a Bible reading by Rev. D. E.
Holt, of Bath. The clergyman gave
these readings each day. This was
followed by a sermon by Rev. H. He-
witt, of Mechanic Falls. The singing
was by a chorus under charge of Rev.
C. L. Banghart, of North Conway, N. H.,
with Mrs. Banghart as organist. The
afternoon sermon was by Rev. C. A.
Brooks, of Norway, and the evening
Rev. Mr. Holt.

The Saturday preachers were Rev.
Messrs. Banghart and Parsons.

The Sunday sermons were preached by
Rev. C. H. Priddy, of Portland, Rev.
Geo. L. Durgin, of Cambridge, Mass.,
and Rev. Mr. Holt. Solos were given
during the day by Mrs. Banghart and
Edith Holt of Bath. The children's
service was led by Mrs. Cora Knight
Clifford, of South Paris.

Thursday, Rev. G. B. Hannaford
broke the bread of life to an eager
people. His text was "Jesus, Mighty to
Save." The doxology was sung and the
service closed.

At one o'clock the district steward's
meeting was held at W. R. Swan's cot-
tage. At the same hour Rev. D. C. Ab-
bott of Lisbon conducted the noonday
prayer and prayer service. The sun-
shine having broken through the tree-
tops the afternoon preaching service was
out-of-doors. Rev. Bowley Green, D. D.,
who has recently resigned his pastorate
in Portland to go into the evangelistic
work was the preacher and helpful and
inspiring was his sermon. His subject
was "The Christian Life."

The prayer-meetings have been wide
awake, and the meeting at six in charge
of A. B. McAllister of Norway, lacked
neither in power nor willing workers.

The leader called for forty testimonies
in fifteen minutes and the response
was quick. Two manifested the desire
to be Christians.

A. H. Carver of Kennebunk had
charge of the singing from that time.
In the evening, Rev. C. F. Rice of
Lisbon Falls, gave an earnest talk from
Heb. 11:3, followed by Rev. Bowley
Green. Four started to be Christians.

Friday, at half past ten Rev. C. D. Ab-
bott delivered an address on Luke 12:15,
which had in it evidence of deep
study and was very helpful. This was
followed by a short and earnest plea for
Christ by Rev. Bowley Green of Port-
land. At one o'clock the prayer meet-
ing led by Rev. H. A. Clifford was well
attended and was followed at 2 o'clock
by an interesting sermon by Rev. Bow-
ley Green, who preached from the text:
"Seek ye first the kingdom of God and
all these things shall be added unto
you." At 6 o'clock a prayer meeting
was held, led by Rev. G. F. Millward,
followed by Mr. Green.

Sisterhood Picnic

Enjoyable Outing, Successful Program.

The Sisterhood of Bryant's Pond affiliated
with the K. of P. and held their an-
nual picnic Aug. 31, at Camp Echo,
Round Pond.

Everything went off smoothly and the
affair was voted a success. Members
attended from Bethel, Rumford, West
Paris and other places. There were
some invited guests.

The picnic was in charge of a commit-
tee composed of Mrs. Amanda Sheeran,
Mrs. Hayes, Mrs. Clarence Jackson. Be-
tween 50 and 60 persons attended start-
ed from Bryant's Pond at 9:30 in teams
and busses, arriving at Camp Echo at
about 10:15.

After two or three of the young peo-
ple had delivered speeches, the cloths
were spread for a picnic dinner consisting
of baked beans, chicken sandwiches,
cold meats, cake, coffee, lemonade and
the like. The dinner was a hit with ev-
eryone. After it, some went rowing and
fishing on the lake while others chatted
and indulged in a sociable time. The
return was made at 5:30, and everyone
was much pleased with the success of
the affair.

Cornish Fair.

A teacher was giving her class
the first lesson in subtraction. "Now, in
order to subtract," she explained,
"things have got to be of the same de-
nomination. For instance, we couldn't
take three apples from four pears nor
six horses from nine dogs." A hand
went up in the back part of the room.
"Teacher," shouted a small boy, "can't
you take four quarts of milk from three
cows?"

A Remarkable Success.

How The Boston Journal Has Grown The
Past Year.

The advance of The Boston Journal
in the past year has been remarkable
everybody is a most remarkable growth.
Where the paper last year was selling
about 40,000 copies a day, it is now sel-
ling over 64,000 copies, showing a growth
of over 60 per cent.

As these figures represent the actual
net cash sale to readers—the Journal
not allowing any returns—they are very
significant. They show a strong, reli-
able, steady growth.

To make this growth possible, the pa-
per has been placed in all possible
ways, its new facilities and its de-
partments have been strengthened, and
the aim has been at all times to make
a clever, readable, bright journal, chock
full of news.

Together with the strengthening of
the circulation of The Journal, the ad-
vertising has also been built up, until
today the cash receipts for advertising
are stated by the management of the
paper to be over 60 per cent. more than
they were a year ago.

One of the most interesting new fea-
tures of The Boston Journal is the es-
tablishment of a shopping bureau—an
idea absolutely unique in newspaper
work anywhere. This was devised to
assist Journal readers in buying goods
from Journal advertisers when, from
bad weather, sickness or other hind-
rance, the reader could not come to
Boston to shop. It has proved a great
success, helping hundreds of readers
everywhere.

The work is done by The Journal en-
tirely without charge of any kind, pur-
ely as a matter of assistance to its read-
ers in taking advantage of the offers
made by Journal advertisers.

Taken to Insane Asylum. Willie Edwards was taken to the asylum at Augusta last week. He has been a little demented for some time past. He received a hurt on his head some time ago, which seemed to affect his mind. HIRAM.

A Chapter of Accidents.

Mrs. O. S. Powers from Boston, who is stopping at her farm in Brownfield, was out in her garden to work and feeling something give way in her side and back, she had to call her daughter, who had to help her to the house. They called in their physician, who pronounced it rheumatism caused by stagnation of the blood. She is better at this writing.

Marshall Spring, while on his way home, Wednesday, met an automobile which frightened his horse, throwing him down and breaking both thighs, throwing Mr. Spring from his wagon, injuring him quite badly.

A Mr. Cram, who is visiting friends in this place, was out Thursday for a little practice with a revolver. He had fired off all but one cartridge. He went to see what the trouble was with that one and it went off, going through the small finger below the first joint. His wife and some boys were with him at the time, and they were very fortunate in coming out of it as well as they did.

The rural letter carrier, C. C. Lowell, met with a very bad accident. As he had just reached the top of Hiram Hill the bolt that holds the whiffletree to the crossbar broke, letting the whiffletree drop on the horse's heels. The horse jumped, throwing him out and the reins caught around his left ankle throwing him a rod into a bank of rocks, breaking the arteries in the calf of his leg and splitting the bone, besides laming him through his back and right leg. His horse ran a half mile and was caught by the reins winding around the wheel which stopped her.

A. G. Stearns' postman for a few days. Tave Ridlon is building an ell on his house. Mrs. Lottie True is at her home on a vacation.

Mrs. Danie Witham has gone to Boston on a visit. Lyman McLucas is building an addition to his barn.

R. N. Lowell is filling his silo with second cut clover. Orman Spring is building a woodshed and carriage house.

I. S. Lowell is at his old job running the retorts at the corn shop. Mrs. Melville Gould went to New Hampshire on a visit recently.

Carroll Milliken has shipped two thousand bushels of blueberries this season. Madison Tripp was obliged to kill one of his horses on account of tuberculosis. The boarders are leaving for home. Many have gone and more are going this week.

Calvin Clemons brought home from Cornish fair many prizes won by his ox team. John Sargent, who has bought a barn frame of I. S. Lowell, is intending to build him a large barn soon.

Cornish fair ended Friday. It being a very stormy week there wasn't many of our townspeople in attendance.

The corn shop opened Friday afternoon. If the frost holds off there will be a great out of fine corn as it is excellent this year.

Theon Durgin and wife, who have been to work in Massachusetts are very sick. Theon came home to his father's, Wednesday. They called in the doctor, who said he was threatened with typhoid fever. His wife, we understand, is coming home to her father's this week.

EAST STONEHAM.

School commenced here Monday. Mrs. Josephine Bickford has returned home from the Hospital.

Many of the summer boarders have left town for their homes. Charles Bartlett, son of Enoch Bartlett, is in town visiting relatives.

Albert Littlefield is expected to have a new piazza built to his dwelling house this fall, and other improvements made.

George W. Speers who has been in a pitiful condition for the past three years, appears to be failing and very seldom leaves the house.

Frank McAllister states that while he was on Albany mountain a short time since, that he found quite a number of brown-tail moths.

Lewis Ramsell has recently reshingled his barn. Maurice Bicknell has been having a new barn built and Walter Butters has been having some new barn doors built.

It has been quite sickly among the children here of late. The young son of Charles Stearns was very sick last week and had convulsions. The doctor was called to attend him.

Lottie Moody of Springman, Va., has been visiting her relatives here the past month, but will soon return home. We had a very pleasant call from the young lady and her aunt Jennie R. Moody a short time since.

We were very sorry to learn of the sad accident and death of Charles H. Spears, Jr. He was recently of Farmington teaching the Primary. Miss Bragg is accompanied by her sister Itana who will attend school.

Rev. Mr. Wilson and mother have returned to Philadelphia. Mr. Wilson will go on to Boston for college. It is needless to say that the people of Upton would be glad to keep this young man and there is hope that he may return.

BUCKFIELD.

Large Number of Relatives.

Wednesday occurred the yearly meeting of the Conants at Nesinscot hall. All together they make a large aggregation of kindred, about 80 we think were the number at this last meeting. They enjoyed the exercises after the shadings came.

Schools commenced Monday. Carol Ricker is quite ill with typhoid. All roads led to North Buckfield Tuesday to Fomona.

Howard P. Shaw and Allen Irish are visiting their parents.

The late rain has brought the work on the dam to a standstill.

A. W. Horton and S. N. Back of Norway were out Thursday Saturday.

Four inches of water fell in a non-flaring half-barrel sitting out in the rain. Dr. W. B. Mead and Anna M. Mead of Providence, R. I., are guests at Hotel Long.

Mr. and Mrs. R. C. Thomas have removed from an extended tarry at Old Orchard.

Corn packing is moving slowly along. The cold nights have retarded the corn's growth considerably.

Dr. and Mrs. Caldwell have been visiting the doctor's old home in Vermont, and will take in Old Orchard and other points.

Mr. Baxter, of the Portland Packing Co., came Monday to Benson and J. E. Taft of Whitman, Mass., were in town Tuesday.

Rev. Mr. Pottle has returned from his vacation; Rev. Eleanor Forbes has returned to work at Gray; Rev. Mr. Athearn returned Friday, accompanied by a niece from Martha's Vineyard.

G. M. Tilton and Thomas Torrey returning from Wayne on Sunday, witnessed the sad spectacle of the burning of the woolen mill at Turner village, when the proprietor Faulkner lost his life.

Under the auspices of the Buckfield Literary Club an entertainment came off at Nesinscot hall, Monday evening. The base of the affair was an impersonation of David Harum by Edward H. Frye. It was very well attended though doubtless many were kept away by the ominous outlook of the elements.

Mr. and Mrs. C. H. Prince and Mrs. Gilbert Tilton and son Bert took a drive in Mr. Prince's auto, Aug. 31, through Summer, attending a grange picnic at the farm of Lewis Bisbee, and visiting old and familiar landmarks, and on account of the rain they did not visit the Tiltons. A good day, a good track and a fine time was reported.

HARRISON.

Leaving One by One.

With the coming of September, the city people who have made our village streets so lively during the summer months, become constantly fewer in number though many still linger. This has been a good season among the boarders. The Elms Inn has a capacity of about 75, including the outdoor rooms and Crystal Lake of about 50. Both have been filled to overflowing. Among private boarding-houses Floral Lawn Farm and Greenwood Villa accommodate ten or a dozen each, and these and other houses have been well filled.

Our own young people too, who have been home for the summer vacation, are leaving us one by one. Perley Cole returns to his position of last year in a fitting school in Pennsylvania, Blanche Cole, who is a teacher in Boston, resumes her work Sept. 11th. Bertha Bates has secured a position as assistant in a high school at Milton, Mass., and begins her work on the same date. Ethel Whittey also has a position in Massachusetts. Grange Field Day.

The Union Grange of Sumner held a field day picnic Aug. 31 by invitation of one of their members Lewis Bisbee. It was held in Mr. Bisbee's grove and the most cordial hospitality was extended by him and his family to the members of the Grange and their invited friends.

The forenoon was devoted to social chat while some pitched horseshoes. Then all partook of a basket dinner with a good appetite.

In the afternoon groups were formed to look over the babies as there were many present, while others rolled nine-pins or went to the field to see the ball game. A nice swing was provided for the children. It was estimated that about 200 were on the grounds that day.

Easy chairs were furnished and nothing was left undone which could add to the comfort or pleasure of the visitors. So the number one of the most social gatherings of the season.
